Hard Skill

- Front-end Development: HTML, CSS, Tailwind, JavaScript, typescript, Bootstrap, jQuery, React, Angular and Vue
- Back-end Development: PHP, Java, C#, ASP.NET Core, Laravel, GraphQL
- Database Management: SQL, MySQL
- Version Control: Git, GitHub, Bitbucket
- Security: Web Application Security, Authentication and Authorization, Cross-Site Scripting (XSS), Cross-Site Request Forgery (CSRF), SQL Injection
- Amazon RDS (Relational Database Service)

Soft Skill

- Problem-solving: Ability to analyze complex problems and find effective solutions.
- Adaptability: Flexibility to work with different technologies and adapt to changing project requirements.
- Collaboration: Strong teamwork and communication skills to collaborate with designers, developers, and stakeholders.
- Time Management: Efficiently manage tasks and meet project deadlines.
- Continuous Learning: Enthusiasm for staying updated with the latest web development trends and technologies.
- Analytical Thinking: Logical and analytical thinking to troubleshoot and debug issues.

Objective

Seeking a challenging Full Stack Web Developer role where I can leverage my front-end and back-end expertise to build dynamic, user-friendly web applications. Committed to contributing in a collaborative environment, continuously improving my technical skills, and delivering high-quality solutions that meet client needs and enhance user experience.

Professional Experience

AtomIT Business Solutions Inc | Software Engineer
2025 – 2026

Key responsibilities:

- Perform DevOps operations, including system maintenance, monitoring, issue investigation, and solution implementation.
- Provide client and system administrator support, including on-site visits and technical troubleshooting.
- Conduct client meetings to gather requirements for new features and module enhancements.
- Develop and maintain applications using Laravel, HTML, CSS, JavaScript, AJAX, and jQuery, following clean coding best practices.

Acendens Asia Philippines | IT Specialist
2023 – 2025

Key responsibilities:

- Website Development: Designing, coding, and modifying websites according to client specifications or project requirements.
- Programming and Scripting: Writing clean, efficient, and maintainable code using languages such as Angular, Tailwind, Typescript, and possibly server-side languages like PHP Laravel Lighthouse.

Bestlink College | IT Instructor
2022 – 2023

Key responsibilities:

- Curriculum Development: Design and develop curriculum and instructional materials for web development and data structure courses, ensuring they align with industry standards and best practices.
- Course Delivery: Deliver engaging and interactive lectures, presentations, and demonstrations on web development and data structure topics, using appropriate teaching methodologies and techniques.
- Hands-on Practice: Facilitate practical sessions and provide hands-on exercises to help students apply their knowledge.
